'ROUND 'N' 'ROUND

We love the manner in which some people are interviewed by newspapermen.

Some men—and some women feel that the height of success is to be interviewed by a scribe—who, according to the books, will carry a notebook, smoke a cigarette and look wise.

And then the newspaperman appears on the scene. He doesn't look interested—he doesn't carry a notebook.

Once in a while he'll take a note—especially if a name, date, or address is given.

After the interview is over, the interviewed is quite surprised—almost heartbroken because the reported didn't look interested and didn't take more notes.

Yet, the next day, the interviewed person will find his story in the paper—and his words quoted just as he said them.

For good newspapermen never need a note book—just a slip of paper to write down proper names or addresses.

Speaking of being interviewed reminds us of a certain organization that met at various times, talked for hours, and then cried because they weren't getting any publicity.

As a result, a reporter was sent to cover a meeting of the group.

Being one of the few scribes who can take shorthand, he took down word for word every thing said by the speakers.

And he published them that way.

As a result, one of the "agitators" at the meeting, who had launched an attack on the city government and what have you, appeared at the office the next day, "red headed," declaring he had never said such words.

And he still insists he never did—in spite of the fact that the notes taken at the meeting were against him.

This, of course, was the result of the speaker opening his mouth and exercising his vocal chords without first thinking about what he was saying.

Life, and people, are like that.

JURY FINDS BECKER GUILTY MOONEY SCORES GOVERNOR

PARDON PLEA DENIED BY YOUNG

LOS ANGELES, July 8.—UP.—The long fight of Thomas Mooney to escape a life sentence in San Quentin prison for conviction on a charge of participation in the 1916 Preparedness Day bombing in San Francisco met a severe setback today when Governor C. C. Young denied Mooney's application for pardon.

The decision was taken as an indication that Mooney must serve his life sentence unless some new evidence in his case is uncovered. It also was pointed out that presentation of such evidence probably would be a long drawn out procedure.

In making public his decision, the governor held out some future hope for Mooney and Warren K. Billings, also convicted of participation in the bombing outrage which killed nine persons and injured 40 others.

JURY SCORES SLAIN RANCH MAN'S WIDOW

REDWOOD CITY, July 8.—UP.—Recommendation that Mrs. Minnie Roderick, 32, widow of Frank Roderick, wealthy La Honda rancher, whose body was found in an abandoned well on his property, be held by police "until she proves her innocence in a fair trial" was made in a verdict of a coroner's jury here today.

Testimony before the jury included the charge of Ernest L. Hillebrandt, a neighbor, that he had heard the widow threaten to shoot her husband.

The jury urged that Hillebrandt be held as a material witness but made no comment regarding William Woodring, ranch hand, who has already been arraigned.

Assistant District Attorney Edmund Scott said he would not take immediate action on the jury's verdict, indicating he would wait for more conclusive evidence.

OIL, LUMBER ARE LOADED HERE

By ELH  
One of Richmond's industries—an industry that many of the citizens of Richmond almost forget exists—is our waterfront.

Leased from the city of Richmond by the Parr-Richmond Terminal corporation, the inner and outer harbors are being operated on a large scale.

Thousands of tons of merchandise, building materials and oils pass over the local docks each month—consigned to Asia, Africa, Australia and Europe.

Much Oil  
The majority of the cargo handled here is oil and oil products. In addition to its loading docks, the Standard Oil sends much of its products to be shipped from our wharves.

The Associated, the Union and the Shell Oil companies are other oil companies who ship their products from Richmond.

Most of the oils are brought to Richmond by rail. A small portion is brought here by barge.

Oil Barge Here  
The Union and Associated companies loads its oils on barges at Martinez or Oleum and then ships it to Richmond.

All of the oils are stored at the outer harbor terminal. Here are thousands of thousands of barrels of oil, gasoline and other petroleum products.

Ships dock at the outer harbor wharf, run up a red flag to warn other harbor craft that it is loading explosives and starts to take on its cargo.

Shipped to Orient  
These oils are in general shipped to the Orient—to Africa, Australia and elsewhere.

PILOT STARTS LONG FLIGHT OVER OCEAN

RIO DE JANEIRO, July 8.—UP.—Radio dispatches received up to midnight tonight indicated that Jean Marmoz, French airmail pilot, was well past the St. Paul rocks on his hop across the South Atlantic.

PERNAMBUCO, Brazil, July 8.—UP.—Jean Marmoz, famous French airmail aviator, took off in his seaplane from Natal at 4:44 p. m. today on his return across the south Atlantic to France via Senegal, Africa.

He carried mail from various cities in South Africa for Europe. Marmoz was accompanied by his navigator, D'Arby, and Radio Operator Gimle.

Plane Starts  
They warmed up the big seaplane's motors during the afternoon, and at 4:30 taxied into position on Bomfin Lagoon, about 18 miles south of Natal, whence they rose into the air and headed out across the Atlantic.

Previous efforts to raise the heavily loaded machine from the ocean at Natal a month ago proved futile, and weeks of delay followed.

Officials of the Aeropostale company, in charge of the flight said (Continued on Page 8)

SENTENCE TO BE PASSED FRIDAY

OAKLAND, July 8.—(Clipping) a bribery and graft trial that has kept the entire bay regions in a furor, Former Sheriff Burton F. Becker and C. L. Ormsby were today convicted of protecting Chinese lotteries by jury in the courtroom of Judge Fred V. Wood.

J. L. Davis, Becker's former deputy, was acquitted by the jury which took only 21 minutes to render a verdict.

With the exception of a quick sideways glance at Judge Wood, Becker showed no signs, keeping his eyes riveted on the floor.

Wife Present  
Mrs. Becker, sitting in the first row of spectators bowed her head and covered her face with her hands, and had to leave the courtroom on the arm of Mrs. Davis.

Ormsby seemed prepared for the verdict, whispering to his attorney when the jury filed in.

"It's guilty. They were too quick."

Davis was plainly elated over his acquittal. He was found not guilty on a charge of conspiracy to bribe by the court, and at the orders of the bench, the charge of bribery was disregarded.

Sentence Friday  
Becker and Ormsby will appear for sentence next Friday, and if the case is to be carried to a higher court, it will be announced then.

After hearing the verdict, Becker was led away to the jail where he has locked countless prisoners. Ormsby was placed in a nearby cell. Davis is already in jail under a previous conviction.

The case went to the jury at 12:45 when it organized. It then went to lunch at 1:15, returned to the jury room at 2:50, reached a verdict at 3:12 and came into court at 3:25.

DROWNED MAN BODY SOUGHT

PITTSBURGH, July 8.—Despite dragging activities by more than a score of tugs and fishing boats under the direction of Chief of Police Charles Sander, the body of Fred Babler, 24, mechanic on a Longview dredger had not been found at a late hour today.

Babler was drowned when he jumped overboard after catching fire to his clothing while filling a motor of the dredger in the channel near the Boothe cannery here.

Reel workers said Babler attempted to light a cigarette while filling the motor with gasoline. The fumes ignited and the fire rapidly spread to his clothing.

Failing to beat out the blaze with his hands, Babler leaped overboard and was not seen again.

ODD FELLOWS BEATEN BY SONS

By JAMES SMITH  
The battle for City Twilight league supremacy yesterday afternoon ended in a 5 to 4 victory for the Native Sons over the Odd Fellows' nine.

The tide of fortune went into reverse twice in the last of the seventh inning of yesterday's hectic game.

The Odd Fellows were still scoreless and hitless at the beginning of the seventh inning, while the Native Sons had gathered a total of four counters preceding the final period.

Get 4 Runs  
However, the Linkers awoke from their six inning lethargy in the first of the seventh, and proceeded to garner four runs to tie the score. Gualdoni singled, and Rosano doubled, sending Gualdoni over home plate. Carl Pinto reached the first base on Daley's error, while George Lehmkuhl earned first base on a passed ball. The Native Sons' fielding then broke down completely, and Lester Skow brought Pinto and Lehmkuhl home.

But here the Linkers' rally was suddenly brought to an end, three pop-outs following each other in quick succession.

The last half of the seventh inning was short and snappy. Joe Prolo walked. Banducci was hit by a pitched ball, sending Prolo to second. Then Daley smashed out a nice long hit toward right field, and Prolo finished the four-bag circuit to hand a hard fought victory to the Native Sons.

DeBarre Chucks  
"Lefty" DeBarre, chucking for the Native Sons, pitched perfect ball during the first six innings, preventing the Odd Fellows from coming a single bingle. However, DeBarre started to weaken in the first of the seventh, allowing two hits. He was replaced by Viano who finished the game. Viano kept the Odd Fellows hitless.

Orr was rather an easy mark for the Native Son sluggers, who collected eleven hits off him. He whiffed three and allowed four free trips to first base. DeBarre struck out five Linkers, and allowed one base on balls. Viano struck out one opponent, and kept the Odd Fellows walkless.

A three-way tie is practically certain to occur in the Richmond league, as the Firemen will earn their ninth victory Friday night when they take by forfeit their scheduled game with the Standard Oil. The refinery athletes are practically out of league competition, and have been a reliable source of forfeited games during the last several weeks.

Solons, Oaks Seattle, Seals Win Victories

SACRAMENTO, July 8.—UP—The Senators held second place of the Pacific Coast league here tonight by beating Hollywood, 5 to 1. The Stars were blanked except for a home run by Hill, their center-fielder in the third inning.

Hits were nearly evenly divided. Sacramento having 11 and Hollywood 10, but the Senators did not make a mistake in the field while Hollywood committed two errors.

Sacramento was assured of victory with two runs in the second inning but the Senators continued to bunch their hits until they chased Hollister, Hollywood pitcher, to the showers.

Seattle's shut-out of the Los Angeles Angels, leaders of the Pacific Coast lead, and cut their advantage to three games with six left to play in the first half of the season.

Hubbell was on the mound for Seattle and allowed only four hits, the Indians winning 6 to 0.

The San Francisco Seals and Oakland were the other winners. Six runs in the last two times at bat gave the Seals a 12 to 6 victory over Portland and the Oaks held an early lead to beat the San Francisco Missions, 8 to 3.

Gasoline Prices Raised At L. A.  
LOS ANGELES, July 8.—UP—The "gas war" situation in southern California reached a critical stage tonight with five major independent companies united in an effort to place the retail price of gasoline back to 19 1/2 cents a gallon.

Led by McMillan Petroleum corporation, which firm raised the price to 19 1/2 cents a gallon, five other large independents established the same price at stations. They were the U. S. Refining company; St. Helen's Petroleum corporation; Western Oil and Refining company; Hercules gasoline company and the Eddington Gasoline company.

Despite the boost officials of non-independent companies predict no raise in their retail prices, which were general at 13 1/2 cents per gallon.

Vancouver To Seek Large Steel Mill

VANCOUVER, B. C. July 8.—UP—A group of leading Vancouver businessmen, associated with a group of Detroit capitalists, are making an attempt to establish a steel manufacturing plant in this area, it was said today.

Nominal capitalization of the new firm is said to be approximately \$23,000,000. The group is taking over the assets of the Coast Range Steel company, which was organized 10 years ago.

Excellent iron ore was located at Texada island, about 30 miles from here, and the new concern has already done some development work there.

A preliminary discussion with the provincial government disclosed the fact that the province of British Columbia is willing to give a \$3 bounty on each ton of steel produced here. On this basis, it was said, the province would be willing to subsidize the mill.

The government is keenly interested in the undertaking, which appears to be sponsored by practical businessmen.

Final arrangements for financing the large undertaking have yet to be completed.

ROCKEFELLER CELEBRATES BIRTHDAY

TARRYTOWN, N. Y., July 8.—UP—A round of golf, a stroll through his gardens and a golf motor ride through the hills near where Icabod Crane encountered the headless horseman, were the high spots in John D. Rockefeller observing his 81st birthday anniversary today.

Newspaper men and camera men, laid siege to the gates which open onto the vast Rockefeller estate at Pocantico Hills early this morning, and were still there tonight. But the nonpareil oil king remained secluded, with only a few relatives and close friends for companions.

A guard at the gate was asked how Rockefeller was spending the day. The guard replied that the multimillionaire was following his usual routine, which consisted of "doing what he wants to do when he wants to do it."

It was known, however, that he arose before 8 a. m. and immediately after breakfast strolled through his gardens. A secretary accompanied him on the walk, reading a digest of the news to the aged financier. The digest is prepared each day for Rockefeller. After it has been read to him he discusses the various current events with members of the family and friends.

Later in the day, with several unnamed companions, Rockefeller played nine holes of golf.

At noon he had luncheon and then took a brief rest. He was then driven through the hills of the Rockefeller estate in his own automobile.

An informal dinner was given in his honor at the residence tonight, with only a few persons attending. There was no birthday cake, it was said, since the honored guest does not like cake.

For the first time in many years, Rockefeller's son, John D. Jr., was not present for the birthday dinner. The younger Rockefeller is in the west on a business trip.

LEGION ELEVEN WILL START PRACTICE

By MAYNARD C. YOUNGS  
First faint rumors of "Old King Football" taking the place of baseball in the interest of the public have become evident in Richmond, following announcement by Dan "Hap" Bradley that practice for the 1930 Richmond Post of the American Legion football team would probably start the latter part of this month or the first of August.

Bradley was manager of last year's Richmond squad, and ran the team in such a manner that it will be hard to replace him this fall.

Although he has hinted around that he would not accept the management of the local squad, if one is formed, it is evident from his announcement and his awakened interest in the sport that he will not refuse the post.

Need Players  
"Whether or not Richmond Post of the American Legion will have a football team this year depends entirely upon the quality and quantity of grid men that come out for practice," Bradley said.

"If a sufficient number of players turn out, there is no reason why we shouldn't have one of the classiest aggregations in American Legion football," he declared.

Bradley continued: "Last year we were slightly handicapped by injuries early in the season incurred while playing teams that had advanced more and had had more experience than our bunch."

New Men  
"However," Hap said, "this year will tell a different story. I have several fellows in mind that will probably will come out for the team, and if the boys get off to an early start, we'll show the teams around here how real football is played."

The Richmond Legion team last year did get off to a bad start, but during the latter part of the season was defeating teams that were considered far above the average.

American Legion football aroused considerable interest in the state last year, and practically every Legion post boasted a squad of hardy footballers.

The final game of the year, played in San Francisco for the state

LEGION NINES MEET HERE FRIDAY

The county American Legion Junior baseball title will be at stake in a three game series between the Richmond American Legion athletes (Native Sons) and the Antioch American Legion boys which will open Friday afternoon on the First street diamond at 4:30 o'clock.

Antioch is Richmond's last hurdle on the way to the championship of the county, and the right to meet the Alameda county tit lists for the eastbay championship.

First Crockett and then Bay Point went down before the heavy hitting and clever fielding of the local boys. It is fairly probable that the Richmond athletes will again do the same trick in the case of the Antioch aggregation, although the Antioch youngsters are reputed to possess plenty of worthwhile baseball knowledge.

At any rate, hard baseball will be played during all three county championship contests.

The probable lineup for the local team is as follows: Moitosa 3b; Collin or Shinnick, rf; Outman, ss; Scarcella, 1b; DeCourten, lf; Glover, cf; White or Humphrey 2b; Santella, Crocker or Novascone, c and Lemon, p.

## Why Fat Men Stay Fat

"The trouble with me, and I guess this applies to 99% of the men who are putting on weight, I didn't have the energy or 'zip' to keep it off. Lost all interest in any healthy activity, and just layed around accumulating the old pounds until I got that 'Krauschen' feeling."

Start taking Krauschen Salts—that's the common-sense way to reduce—but don't take them with the idea that they possess reducing qualities in themselves.

This is what they do—they clean out the impurities in your blood by keeping the bowels, kidneys and liver in splendid working shape and fill you with a vigor and tireless energy you'd most forgotten had existed.  
As a result instead of planting yourself in an easy chair every free moment and letting flabby fat accumulate you feel an urge for activity that keeps you moving around doing the things you've always wanted to do and needed to do to keep you in good condition.  
Then watch the pounds slide off—Krauschen Salts are the up-to-date Fountain of Youth. Take one half teaspoonful in a glass of hot or cold water tomorrow morning and every morning—and if they don't change your whole idea about reducing, so bunk get them the small price you paid for them. Get an 85c bottle of Krauschen Salts—lasts 4 weeks—at La Moine Drug Co. or any progressive druggist anywhere in the world.

## ATTACK STARTS ON NAVAL TREATY

WASHINGTON, July 8.—UP—A two-fold attack on the London naval treaty started in the senate today, as Senator Swanson, Dem. Va., concluded a scholarly two-hour defense of the document and Chairman Berah of the foreign relations committee announced he would press for earlier meetings daily to speed action.

Chairman Hale of the naval affairs committee regarded as the head of the big navy group, started a sniping attack by asking questions calculated to show that Britain's super-battleships Rodney and Nelson gave her ultimate naval superiority in spite of the treaty.

Then two other opponents, Johnson of California and McKellar of Tennessee, launched a bombardment in a couple of exceedingly vehement speeches concerning President Hoover's refusal to make available to the senate the secret correspondence with Ambassador Dawes which led up to the treaty.

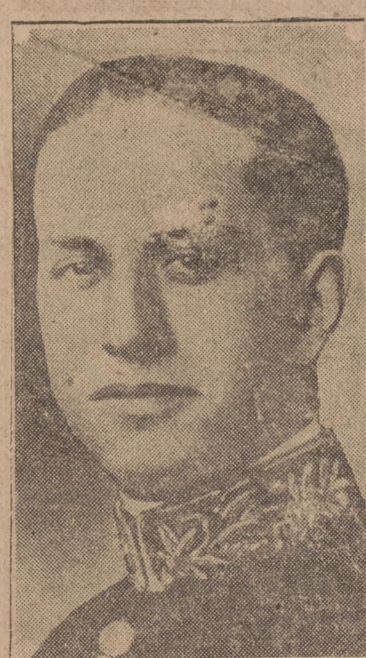

**Resolution Planned**  
Robinson, Dem., Ark., one of the London conference delegates moved to amend McKellar's resolution now pending, calling on the president for the documents, by making production of them dependent on whether such action is "compatible with the public interest."

The resolution will be called up tomorrow and probably amended as proposed by Robinson and passed. Many senators who favor the treaty are agreeable to making the demand, although they see little chance of getting the documents, Hoover already has rejected the request of the foreign relations committee for the documents, which should be interesting reading if Dawes' reports are in his usual picturesque and unrestrained style. Reed, Pa., the other London delegate from the senate, challenged Hale's reference to the Rodney and the Nelson. Reed called attention to the fact that this country has three of the most modern battleships of the Colorado type.

## Thick Ice Kills Countless Fish

REGINA, Sask.—Deep down in Burton lake, north of Humboldt, there occurred this winter a tragedy of gamelish. Every fish in the lake—there were thousands and thousands—was killed, apparently by the ice which was thicker this year than any other winter on record. Burton lake has been a fisherman's mecca for years.

## THREE KILLED IN CRASHES HERE

In 331 automobile accidents reported to the Richmond police during the fiscal year ending June 30, three persons were killed and 110 injured, according to the report of Chief of Police Dan Cox filed with the city council.

Ten suicides were committed here during the year, leading all listed causes of violent death. There were also four unsuccessful attempts at suicide.

Falls accounted for one death and 11 injuries. Ten dead and 13 injured were reported from other causes not segregated in the police report.

A total of 29 deaths and 127 injuries from all causes were reported to the police.

A total of 946 arrests were also made during the year, while property valued at \$26,342 was stolen. Of this amount, \$14,028 was recovered, and property valued at \$5240 was recovered for outside departments. Property valued at \$1351 was reported lost. Of this amount, \$920 was recovered.

## GARY COOPER STARS IN FILM

Totally different in many ways, yet bringing the same carefree, swaggering, outdoor freedom of “The Virginian” to the talking screen, “The Texan,” Paramount's second great romance of the West, opens a two day showing at the Fox-California theater tomorrow. Gary Cooper, “The Virginian” is also “The Texan.”

O. Henry wrote the original story “A Double-Dyed Deceiver,” from which “The Texan” was adapted. It first appeared in a collection of stories, “Roads of Destiny” by the famous author, and popular acclaim singled it out as one of the most thoroughly human pieces from the pen of America's best-loved writer, Oliver H. P. Garrett who wrote “Streets of Chance” adapted O. Henry's story for the screen.

The story opens in Texas and climaxes on the pampas of South America. It tells of the Llano Kid, a young bandit, who is persuaded to go to South America to pose as the runaway son of a wealthy and aristocratic widow. There he meets the widow's beautiful niece, and finds a mother's love. Although he went to rob, he finds he cannot destroy the older woman's happiness.

Filled with splendid outdoor scenes and action, the picture has a clean-cut appeal. Gary Cooper is a fast-riding, fast-shooting plainsman, whose true honesty is forced to the surface in a human and logical way. Fay Wray is the girl. She played opposite Cooper in “The First Kiss” and “Legion of the Condemned.” Emma Dunn gives another wonderful mother portrayal, one of the best of those which have made her famous on stage and screen for nearly a quarter of a century. John Cromwell, who directed George Bancroft in “The Mighty” and William Powell in “Street of Chance” made this picture.

Also on the program is a talking comedy entitled “Bearded Lady.”

## BORN RECKLESS TO END AT THE FOX

In “Born Reckless” the Fox Movie tone drama of gangland which closes tonight at the Fox-California theater, Marguerite Churchill enacts a featured role of an Italian girl, born and raised in the ghetto of New York, a role which calls for dramatic acting of the highest order, and one that is well suited to Miss Churchill's ability.

“It is the very type of character I've been wanting to play for some time,” says Miss Churchill, “and it was not until I began work for Fox Movie-tone that my dramatic potentialities were discovered. I had honestly believed myself doomed as a clinging vine and dreaded going through my screen career, hanging on to the hero while he walked off with all the honors.”

Miss Churchill is the youngest leading lady under contract to Fox Films. She has played leading parts in “The Valiant,” “Seven Faces,” and “They Had to See Paris.” Edmund Lowe enacts the leading character, “Louis Beretti” the East Side gangster who risks everything to keep a promise made his buddy in France, Catherine Da'le Owen and Marguerite Churchill play the feminine leads, and Lee Tracy, Warren Hymer, William Harrigan and Frank Albertson are in the other featured roles. The supporting cast includes such well known favorites as Paul Pace, Eddie Gribbon, Ben Bard, Yola D'Avril, Roy Stewart, Paul Porcace and Forke Boros. The production was directed by John Ford.

Also on the program is a talking playlet entitled “Belle of the Night.”

Three Held In  
Murder Of S. F.  
Leather Puncher

SAN FRANCISCO, July 8.—UP —Three men were held in jail here tonight on charges of vagrancy as detectives sought the man who killed Thomas Frayne, 28, known to boxing fans as "Battling Murray," on a street early today.

Those held were Fred Burns, 20, Jerry Craig, 38 and John Ryan, 26. They were companions of Frayne and had just left a bootlegger's with him when he was killed, police claimed.

They accused a man whose identity they did not know for firing the shot. They said the assailant accused them of taking his cap and a fist fight followed, during which the stranger drew a revolver. Later they told detectives that the stranger wore a hat and this discrepancy caused their arrest.

Berkeley Wharf  
To Be Leased  
For Air Ferry

BERKELEY, July 8.—With an application from the Capels Safety Aircraft corporation of El Cerrito for permission to use the old Berkeley municipal wharf as a landing place for an air ferry service, and the authorization of a public auction for a lease on the wharf by the Berkeley city council, it is expected at least three air concerns will bid for the lease.

The Capels corporation, which plans to start an air ferry service between Berkeley and San Francisco, has offered a rental fee of \$100 a month and has agreed to repair and maintain the wharf, which was abandoned several years ago by the city of Berkeley.

Under the terms of the contract as submitted by Acting City Manager Earl Sinclair to the council, the successful bidder must agree to maintain 40 minute service between Berkeley and San Francisco, and must begin operations within 120 days of the date of the signing of the lease. A bond of \$10.00 is also provided for.

Motorists Halt  
For Little Mouse

GREELEY, Colo. —UP —Rather than run over a mouse that darted across the street near the court house, motorists slowed down to give it right of way.

Lots Of Takers  
In Dog Offers

HINSDALE, Mont. —UP —The whim that actuated a certain New Yorker to wire Hinsdale authorities an offer for a police dog which had killed 20 hams in one bloody orgy, may induce a general exodus of Hinsdale's predator canines for the eastern metropolis. The New Yorker had read of the lamb killer and offered a substantial price for the killer. Several residents of the community suggested that the district unload all of its predatory dogs on the big hearted easterner.

## School nurse says all girls should know this

TALKING to a roomful of high school girls on personal hygiene, an experienced district nurse said: "One of the basic rules of health for girls is to keep the system functioning naturally at all times. Normal exercise and diet habits should be encouraged. But when necessary there's no harm in taking nujol, since it works mechanically and can't disturb the normal functions of any organ of the body. Particularly with girls, there are times when nujol should always be taken. Take a spoonful every night for a few days. It's a thoroughly safe and harmless method. It won't cause distress or gas pains or griping."  
Nujol is different from any other substance. It contains no drugs or medicine. It can be taken safely no matter how you are feeling because it is so pure and harmless, and works so easily. Every woman should keep a bottle on hand. Every druggist has this remarkable substance. Get the genuine.

# LOCAL WHARVES ARE BUSY SPOTS

(Continued From Page 1)  
tralia, Japan and sometimes to Europe. Other vessels load the otis here and take them to the east, via the Panama canal, where they are re-shipped to Europe.

Another item that passes over the local wharves in a large quantity is lumber.

White pine, redwood and other lumber is brought to Richmond from northern California, Oregon and Washington.

**Lumber Cargoes**  
This lumber is either consigned to local lumber companies or to South Africa and Australia.

The cargoes are brought here by rail and by water. Lumber schooners, with their cargoes piled high upon their decks, wallow down the coast to the Richmond inner harbor, where the lumber is unloaded.

The local dealers then remove their order and the lumber consigned to the Orient is stored here.

Each month, one or more lumber steamers arrive here to take on a cargo.

**Sugar Loaded**  
Most of the lumber is consigned to South Africa and Australia.

White pine is generally used by these countries, as there is a large demand for it.

Another item which is handled over the local docks is sugar. This necessity is brought from Crockett from the sugar refinery, either by rail or by stern-wheel steamers.

The sugar is stored at Wharf No. 2, which is known as 'Sugar Wharf'.

**Supplies World**  
By ships and by train the cargo is shipped to all parts of the world—some going to the east, some to the Orient, some to Europe, Africa and Australia.

Many ships docking here from India carry as ballast pig-iron.

This metal is consigned to the Standard Sanitary Manufacturing plant in Richmond and is used for the manufacture of sanitary supplies.

Moulding sands are also brought here by ships. These sands are also used by the Standard Sanitary Manufacturing company.

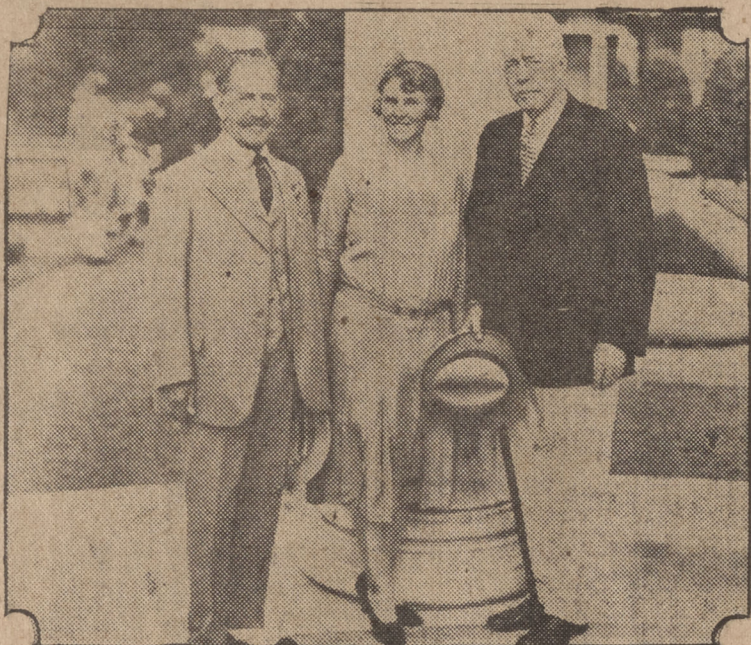

With the rapid growth of the city, the shipping from the local wharf will increase just as rapidly.

Within a short time it can easily be seen that Richmond will be one of the most important ports on the Pacific coast.

## Pilot Starts Long Flight Over Ocean

(Continued From Page 1)  
weather conditions to the north were fair. Mermox expected to make a non-stop flight direct to Dakar, Senegal.

**Ships Leave**  
Simultaneous with Mermox's departure, the Aeropostale ship Reveny left Natal headed for Africa, and the Belfort left Dakar, heading for South America.

Other Aeropostale ships, along the route the pilots will pass were instructed to keep a look-out for the plane.

The ships also will keep in constant touch by radio with Mermox, advising him of his position, and furnishing weather reports.

**Flight Fails**  
It was expected the crossing would take about 21 hours.

Mermox flew to Natal with the mail in May, opening up the proposed air line connecting South America and Europe, landing safely and without incident after the long over-water flight.

Efforts early in June to start on the return flight failed, the seaplane refusing to leave the water.

The selection of the lagoon as a starting place resulted, and the plane had no trouble getting away today.

MOONEY PLEA FOR PARDON DENIED

(Continued from Page 1)  
to his cell.

Billings' pardon application was denied on July 4 by the state supreme court to which he appealed, rather than the governor, because he had served a prior prison sentence.

**Reverses Testimony.**  
The supreme court, in its opinion, remarked that it had not had the opportunity to examine John MacDonald, a witness who identified Billings as the man he saw carrying a suitcase on Market street before the explosion, and Mooney as the man he saw talking with Billings. Several years later, MacDonald repudiated his testimony in an affidavit, and said he was not sure of his identifications.

"I would most respectfully suggest to the members of the supreme court," the governor said in his statement, "that should MacDonald or any other material witness who has repudiated their former testimony, appear before them for the purpose of proving that such repudiations are trustworthy, and that their former testimony was perjured, it may be only just and right to consider the propriety of giving a hearing to such witnesses in the case of Billings, just as I should desire to do in the case of Mooney."

Governor Young said that from the first he had recognized Billings and Mooney as equally guilty or innocent.

**Pardon Denied**  
Not only did Governor Young have the adverse action of the supreme court as a precedent, but last night the state advisory pardon board recommended that the executive power of pardon be not extended to Mooney.

The governor said he had made a long, independent study of the Mooney case, and that thousands of communications expressing belief in Mooney's innocence had been directed to his office. He said he reached his decision with absolutely no prejudice against Mooney for any social theory the prisoner held or on any other social crimes with which he may have been charged.

**Served 14 Years.**  
"I am aware," the governor said in his report, "that this decision will be disappointing to many, particularly to those who have come to feel strongly on this subject without having had the opportunity to study the case at first hand; but in a matter like this, I must be guided by a conscientious regard for my oath of office, rather than a willingness to respond to popular appeal."

Mooney has served 14 years in San Quentin prison and Billings the same length of time in Folsom, California's penitentiary for "two-time losers." Mooney was originally sentenced to death but governor W. D. Stephens, in office when the men were convicted, commuted the penalty to life imprisonment after a request by President Woodrow Wilson.

**Native Born**  
**Lead In Jail**

DETROIT, —UP— Of the 1455 prisoners brought in recorder's court here on felony charges in the first three months of this year, 78 per cent were native born, figures compiled by court clerks show. The impression that a majority of the crimes committed here are the work of foreigners, Judge Arthur W. Kilpatrick, who caused the compilation to be made, said, was gained from the foreign names of the suspects who usually represent the second or third generation of the foreign born.

## Escaped Felon To Be Brought To California

WHITE PLAINS, N. Y. July 8 —UP—Deputy Sheriffs Earl Riley and A. B. Mason, San Diego, arrived here today to seek custody of John Dean now in the county jail awaiting sentence on a charge of escaping from Westchester county penitentiary.

Dean, the sheriffs said, faces charges in California that may send him to prison for the rest of his life, if convicted.

They said Dean escaped four years ago from deputy sheriffs who were bringing him from a San Diego jail to a courtroom, where he was on trial for burglary.

## Woman Hangs Self With Pair Of Hose

PHOENIX, Ariz., July 8.—UP—Mrs. Annie Allen, 40, committed suicide here today by hanging herself with a pair of stockings. She had been employed two weeks ago as a maid by Mrs. M. Eisenstein.

## Log Building Still Stands

CHERLEVIOUX—Believed to be one of the oldest structures in Michigan is a log building erected by the Northwestern Fur Trading company on Beaver Island in 1824. The building is in a good state of preservation and has been shingled and been cared for by its numerous inhabitants. At present an Indian family is occupying the structure.

## Southern Cross Lands In South

SANTA MARIA, July 8.—Captain Charles Kingsford-Smith transoceanic flier, landed the monoplane Southern Cross here today after a brief flight from San Francisco. He plans to leave the plane here with G. Allen Hancock, sponsor of the flight to Australia, and go to Sydney by boat.

Police said some mystery surrounded the woman's past life. Efforts are being made to locate relatives.

## Oakland Doctor Drowned In River

YOSEMITE July 8.—UP—Dr. Philip H. Weber, 2531 Marlin street, Oakland, was drowned last night while fishing in the Tuolumne river.

Mrs. Weber last saw her husband fishing from a rock and shortly afterwards sighted his body floating downstream.

Other members of the party were S. W. Gomp of San Francisco and Dr. Solomon of Oakland.

## Mrs. Berri Given Freedom By U. S.

SAN FRANCISCO, July 8.—UP—The government released Mrs. Grace Berri star witness in the Lucich murder trial and the Mason still case, here late today.

Mrs. Berri has been held as a "detained witness" in the Mason case, which was tried in federal court. As such, her hospital bills have been paid by the government while she has been recovering from a bullet wound inflicted at the time Melville G. Sturtevant, another government witness, was killed. She went to San Rafael to testify against Lucich who was convicted for the murder of Sturtevant and is likely to receive a sentence of life imprisonment.

Federal Judge Frank H. Norcross signed the order by which Mrs. Berri was released. It was reported that friends were planning to hurry her from the state.

## Idaho Town Joins Ghost City Ranks

BOISE, Idaho.—Once boasting a population of 5000 when it was a flourishing mining camp, Atlanta in Elmore county, has joined the ranks of ghost cities of the west and now has a population of but 47 souls.

## Four Injured In Collapse Of Steamer Pier

PENNS GROVE, N. J. July 8.—UP—A 350-foot wooden pier, weakened three weeks ago when it was rammed by a ferry steamer collapsed and sank in the Delaware river here late today causing injuries to four persons.

The pier buckled and dropped into the water only five minutes after the Wilson line boat for Philadelphia had pulled away from it. Ten minutes before the crash the pier was swarming with people.

Only one of the injured—Mrs. Taylor Holmes, wife of the pier superintendent—was seriously injured.

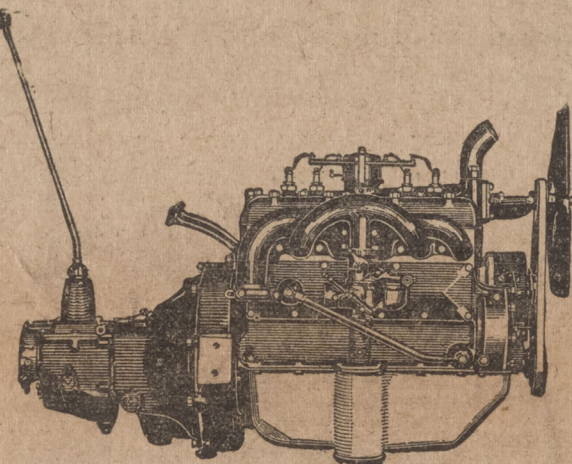

# THE VALUE of SOUND DESIGN

**New Ford engine gives outstanding acceleration, speed and power without sacrificing reliability or economy**

THE GOOD PERFORMANCE of the Ford car, so apparent on every highway, is due largely to the sound mechanical design of the engine.

It has outstanding acceleration, speed and power, yet that is only part of its value to you. Greater still is the fact that it brings you all these features without sacrificing either reliability or economy.

That is the reason the Ford car has given such satisfactory service to millions of motorists all over the world and has been chosen by so

many large companies that keep accurate cost figures. In every detail of construction it has been carefully planned and made for the work it has to do.

The design of the compression chamber is an important factor in the efficiency of the Ford engine. It

is built to allow free passage of gases through the valves and to thoroughly mix the fuel by producing turbulence within the cylinders during compression. The spark thus flashes quickly through the whole fuel charge, resulting in quieter and more effective engine performance.

Other factors are the direct gravity gasoline feed, the specially designed carburetor, the new hot-spot manifold, aluminum pistons, chrome silicon alloy valves of larger diameter, statically and dynamically balanced crankshaft and flywheel, simplicity of the electrical, cooling, lubrication, and fuel systems and accuracy in manufacturing.
